SW Week SIT Session

# SIT Twiki Pages

- FL has recently rearranged the SIT Twiki pages created during the 2005 SIT Review.
  - The revised pages are at:  
<https://twiki.cern.ch/twiki/bin/view/Atlas/SIT>
  - There is a revised structure for these pages in the Twiki:
    - TWiki > Atlas Web
    - TWiki > Atlas Web > AtlasComputing
    - TWiki > Atlas Web > AtlasComputing > SIT
    - TWiki > Atlas Web > AtlasComputing > SIT > XXXInAtlas
  - These pages are now linked from the parent page and I put in my best guess as to who should be the responsible for each package.
- PLEASE look over and edit the pages - the desperately need updating!

# SIT Twiki Pages - To Do List

- We need three Twiki pages to be written and linked into the main SIT Twiki pages:
  - Disk Space (Emil? - not so important?)
  - HyperNews (Taudi)
  - Training (James)
- There may be pages for the above subjects that could be linked in already. I have not made an exhaustive search.
- In general ALL of the documentation needs to be reviewed - we need to do the review SOON.

# Twiki Pages - Still More

- The TWIKI is rapidly filling up little used and obsolete web pages.
  - PLEASE delete old, obsolete pages and clean the remaining pages.
  - Likewise orphaned, useful pages should be linked into the Twiki.
  - You know who you are...
    - Please don't make me chase people individually.

# SIT Bi-Weekly Meeting Format

- I solicited input from you using the SIT HyperNews group on the format (agenda, order, meeting length, etc.) of the SIT meetings. I was very surprised to find out that most of you like having a two hour meeting during which you only get to speak for a few minutes.
  - Consequently I plan to make the format and periodicity of the SIT meetings next year very similar to what we had for this past year.
  - I may start asking people to put slides onto the agenda for each agenda item? I hate to do this because it's a lot of work but I wonder if doing so would lead to more efficient, shorter meetings.

# CVS Repository Cleanup

- I listed this as one possible thing to be accomplished by 13.0.0.
  - I don't believe that we have sufficient people to do the cleanup now.

# Savannah Bugs

- Could everyone belonging to the SIT please look at and work on the open infrastructure bugs.

Item ID	Summary	Submitted On	Assigned To	Submitted By
#22318	KV test of compiling MooEvent fails under SLC4	2006-12-09 17:16	desalvo	fredlu
#22064	new RTT web page does not work at all	2006-11-30 10:55	simmons	elsing
#21947	genreflex doesn't support debug flag -g which can be in \$(use_pp_cppflags)	2006-11-27 20:45	quarrie	efeld
#21879	Problem in 12.0.3-COS rel_4 nightlies (23/11)	2006-11-23 15:48	obreshko	gorfine
#20348	ATN tests not run on SLC4 64 bit machine	2006-10-05 04:49	aundrus	rousseau
#20335	[12.X.0, rel_3] ATN test for CaloDigiEx fails	2006-10-04 15:39	aundrus	kbernard
#20034	cmt co without tag check out the branch instead of the HEAD	2006-09-25 05:19	vgaronne	rousseau
#19710	Reassigned item: Dependencies not calculated for IOVSvc	2006-09-11 04:33	vgaronne	Schaffer
#19625	Reassigned item: NICOS RTT flag not updated since 30th August for 12.X.0	2006-09-05 12:51	aundrus	simmons
#19527	Problem if two files exist with the same name when using get_files	2006-08-31 12:49	carnault	gorfine
#19444	CMT error in MooEvent Compilation step of kit validation for 12.0.2	2006-08-29 09:18	vgaronne	jkennedy
#19443	Pb with liblapack3.a in release 12.2.0 with kit	2006-08-29 09:08	quarrie	derue
#18731	wrong order in \$LD_LIBRARY_PATH from RunTime setup	2006-08-03 08:25	vgaronne	efeld
#18593	cmt commands fail with #CMT> Warning: package CMT v1r18p20060301 /gridsoft/atlas/test/report not found	2006-07-28 13:31	vgaronne	grigori_r
#18353	improvements to SendMailToClientManagers	2006-07-20 12:22	jfulachi	rousseau
#17839	pacman install of cmt can install two versions if one untar exits badly	2006-06-28 11:22	vgaronne	sgeorge
#17131	Dependency missing for StoreGate/StoreGateSvc.icc	2006-05-29 07:55	vgaronne	Schaffer
#17034	cmt misses a dependency	2006-05-23 18:18	vgaronne	calaf
#16570	Reassigned item: problem with the atlas_2 build of the MuonCalib package	2006-05-02	vgaronne	neldik

# NIM Paper from CHEP06 Talk

- Thanks to a lot of work from a number of you the CHEP06 paper is at NIM being reviewed.
  - I would especially like to thank Traudl for taking the final steps to submit this paper.
  - I believe that we have rounded up enough contributions that paper will be published with color figures. So far we have promises from France, the UK, and the US to contribute.

# Personnel & Effort Levels Next Year

- Please let me know privately of changes to the list of people who will be working on the SIT.
  - In particular, I need to know if people are leaving.
  - For now my assumption is that there are no changes to who is working on the SIT other than the vacancy that was left when Toni Coarosa decided not to join Atlas after we waited some time for him to arrive.
  - I will soon be circulating a chart of effort level for everyone.

# Summing Up

- I thank everyone for their hard work to make the SIT effort successful.
  - You all have been a wonderful team to work with.
  - I would like to publicly embarrass Sebastian by pointing out that he has been doing a very good job at release coordination.
